USER STORIES

- 1) As a customer, I want to have a comment section for my blog so my community can talk about my posts. This must be included, and is something that is to be done, ideally done in sprint 1.
- 2) As a user, I want to be able to directly message other users so that we can privately share basket weaving practices. This is a feature that we should have, therefore it can be done in sprint 2.
- 3) As a user, I want to be able to block users that I wish to not see. This is an extra feature that we want to have, so it belongs to sprint 3.
- 4) As a user, I want to be able to follow other users because I like their in-depth discussions on basket weaving practices. This is an extra feature that we want to have, so it belongs to sprint 3.
- 5) As a user, I want to be able to save blog posts so I can go back to them later. This is a must have feature, so it should be in sprint 1.
